

LICENSED PROFESSIONAL DESIGNER REQUIREMENTS

Unlicensed Person

Section 5537 and 5538 of the California Business & Professions Code allows unlicensed person to prepare plans, drawings, and specifications for the following types of structures in accordance with the conventional framing requirements of Chapter 23 of the 2001 California Building Code and tables of limitation for wood frame construction.

- Single family dwelling not more than two stories and basement in height.
- Multiple dwellings containing no more than four dwelling units and not more than two stories and basement in height. Also, maximum of four dwelling units on any lot.
- Garages or other structures appurtenant to single family dwelling or multiple dwellings not more than two stories and basement in height.
- Agricultural and ranch buildings unless the building official deems that an undue risk to the public health, safety, or welfare is involved.
- Nonstructural store fronts, interior alterations or additions, fixtures, cabinet work, furniture, or other appliances or equipment.

Unlicensed persons may not design any building or structure component that changes or affects the safety of any building, including but not limited to, structural or seismic components.

Plans Required to be Designed by an Architect or Engineer

Plans prepared for the following work, except as specifically noted above, shall be deemed as affecting the safety of a building or its occupants and shall be stamped and signed by a registered engineer or architect:

- New buildings, additions to existing buildings
- Projects with interior or exterior structural alterations
- Interior alteration with an occupancy change
- Interior alteration with walls and partitions over 5'9" in height or ceiling work which cover a floor area greater than 3,000 square feet in B, F-1, F-2, S-1, S-2 and M occupancies
- Storage racks over 8' in height

- Remodeling projects with changes to 1-hr rated corridors, fire rated occupancy separations, area separation walls
- Alteration with changes to exiting requirements
- Hazardous occupancies H-1, H-2, H-3, H-4, H-5, H-6, and H-7
- Assembly occupancies: A-1, A-2, A-2.1, A-3, and A-4
- Tanks and vessels
- Machinery and equipment requiring design per Section 1632 of UBC 97
- Roof mounted mechanical equipment
- School and day care occupancies E-1, E-2, and E-3
- Hospital occupancies I-1.1, I-1.2, I-2, and I-3
- Projects with S-1, S-2, S-3, S-4, S-5, S-6, and F-2 occupancies
- Hotel, motel and apartment occupancies R-1
- Projects with mixed occupancies
- Remodeling projects in a high-rise (having floors over 75' in height) building
- Lateral force resisting systems utilizing poles embedded in the ground
- Cripple walls exceeding 4' in height or adjacent to garage door openings
- Any project deemed by the Chief Building Official to require professional design by a California Registered Engineer or Architect

Design Limitations for Professional

The following limitations for professionals are based on the California Health and Safety Code (HSC) and the Business and Professional Code (BPC).

Architects

May design any building of any type except the structural portion of a hospital.
(HSC section 15048 and BPC sections 5500.1 and 6737)

Civil Engineers

May design any building except hospitals and schools.
(HSC section 39148, BPC sections 5537.5, 6731, 6735, and Education Code section 39148)

Structural Engineers

No limitations. May design any building of any type.
(BPC sections 6637.1, 6731, and 6736)

If you have any questions, please call the City of Sunnyvale Building Division at (408) 730-7444. Information is also available on the Building Division web site at: www.sunnyvalebuilding.com.
